

Aurelium

EXPERIENTIAL SCIENCE CENTER

*„The important thing is not to stop questioning.“
(Albert Einstein)*

Science center is a globally widespread form of interactive exhibitions, combining school, museum and an amusement park. The purpose of experiential science center Aurelium is to increase general interest in science and in a fun way to educate and motivate young people to study technical and natural sciences. Aurelium is intended for general and professional public, especially the youth.

The purpose of experiential science center Aurelium is to increase general interest in science and to educate and motivate young people to study technical and natural sciences in a fun way.
